REVENUE -- LOTTERY ADMINISTRATION

Airport Vending Machines

Motion: 11-5

Move to direct the Department of Revenue to place lottery vending machines in the airport terminals located in Appleton, Green Bay, La Crosse, Madison, and Milwaukee, subject to the approval of each airport's administration agency and the availability of qualified lottery retailers at airport locations.

Note:

In DOR's most recent contract agreement with its on-line and instant ticket supplies and services vendor, up to 500 instant ticket vending machines, owned by the vendor, are available for placement at lottery retailer locations in Wisconsin. To date, about 125 vending machines have been placed, primarily at grocery store locations. The placement of the vending machines will be a gradual process because the machines can only be located in retail areas where the use of the machines can be closely monitored by retailer employees. While a maximum 500 machines are available under the current contract, the actual placements of the machines may total less than this number.

Lottery sales estimates under the bill are based on sales projection models that already reflect the use of the instant ticket vending machines. The motion, which directs the location for the placement of some of the machines, would not affect these sales estimates.

Art,

* A court could find that the provision directing DOR to place lottery ticket vending machines in specific airports and the Amtrak station is a private or local bill, which under art. IV, sec. 18 of the Wisconsin Constitution, must be enacted as a single-subject bill. Do you want instead to direct DOR to place vending machines in airports and train stations that have a certain level of passenger traffic, or do you want to distinguish the airports and train station in some other way?
